

Dear Friend,

Young Texans Against Cancer (YTAC) continues to grow each year with the help of our members and donors. Thanks to the help of YTAC participants in the past, the organization has been fortunate enough to expand to Austin, Texas! In 2008, another group of passionate young Texans have kicked off our Dallas chapter.

We take great pride in sharing this news with those who have watched us grow year after year and those who are interested in learning more about the development of our young organization. The 2007-2008 membership year has been full of fun, fellowship, and of course the joy of knowing we have made a difference in the lives of so many families who are coping with a loved one suffering from cancer.

In the short time our organization has been in existence, YTAC has been able to donate more than \$250,850 to various cancer organizations. Comprised of individuals between the ages of 20 – 40 years old, our members are passionately dedicated to the fight against cancer.

With no parent organization to offer funding or resources, YTAC is organized and led by dedicated individuals who volunteer their time, which we believe speaks highly to the spirit and commitment that distinguishes YTAC.

Together, we can continue building YTAC and enhance the financial and volunteer support of the cancer community. We truly appreciate your consideration of supporting our organization and we ask for your continued financial support by sending in the attached donation card. Thank you in advance for taking the time to learn more about Young Texans Against Cancer and our dedication to the cause. We welcome you to get involved in one of our chapters and help us make a difference in the fight against cancer.

Sincerely,

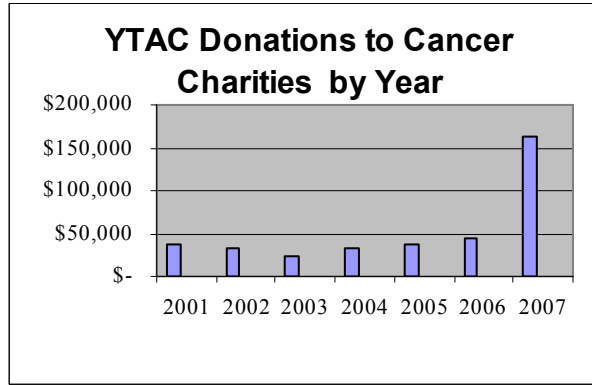

Amy Donovan  
President

Matt Gordon  
Vice President
